

ACUTE (Antrim County United Through Ecology), an informal group of community stakeholders.

AGENDA

Trichloroethylene (TCE) plume: Communicating Solutions

WHEN: 11:00 AM to 12:30, Friday June 26, 2015

WHERE: Cedar River Lodge-Shanty Creek Resorts near Bellaire; 2348 Troon South, Bellaire, MI 49615

PURPOSE: The purposes of this meeting are (1) to communicate the details and timelines associated with the construction projects to proactively prepare Mancelona Area Water & Sewer Authority's public water system for the TCE plume to migrate past the Cedar River Well Field, and (2) to interactively review the pros & cons of a follow up meeting to explore the economics and effectiveness of a TCE remediation project in an area in front of the Summit Village Well Field to reduce the estimated time of impact.

AGENDA:

1. Welcome, introductions, and clarify the purpose of this meeting (Gary Knapp)
→ *Brief remarks from special guests; DEQ, State Legislators, etc.*
2. Briefly overview of recent TCE plume migration and residential monitoring information (Janice Adams and Scott Kendzierski)
3. Timelines for construction projects (Joe Elliott)
→ Antrim County's \$0.25 million in matching funds, plus DEQ's comprehensive funding package; Remediation & Redevelopment and Water Resources Divisions.
→ Storage tanks, booster pumps & new water main, and expanded service area
4. Review pros & cons of a **follow up meeting** to explore anticipated economics and forecasted effectiveness of a TCE **remediation project** in a specific area in front of the Shanty Creek Well Field (Gary Knapp)
5. Other topics, Q&A, as desired and as time allows; Wrap-up and next meeting?
